Dear Miswanto Miswanto

Greetings from Connecting Asia and UTM

Hope all of you have reached your destinations with a lot of amiable memories of **4th Asia International Conference 2018 Langkawi, Malaysia**.

We thank you for being a part of **AIC 2018**. Connecting ASIA team congratulates you for your participation in the AIC-2018 conference.

As a trademark of connecting Asia conferences, AIC 2018 also recorded huge success on its name. There are many other achievements in the name of this year's AIC, that may need a long time to count. However, I would like to share the highlights with you in order to feel the pride to be part of such a growing conference series. This year AIC 2018 received more than 1200 submissions all around the world. After a rigorous review process, only 500 abstracts were selected for presentations and the AIC-2018 concluded with almost 350 presentations in four different themes. Participants presented in the form of Normal, Poster, virtual and 5 slides 5 minutes presentation. The delegates from 32 countries participated in AIC-2018, which is itself a great achievement for Connecting ASIA in order to provide a multicultural networking experience for conference participants.

The successes recorded couldn't have been possible without your participation and encouragement. We congratulate all of the participants of 4th ASIA International Conference 2018. We also don't forget to congratulate our best presenters.

Dear MISWANTO MISWANTO,

Your paper **ANALYSIS OF FINANCIAL PERFORMANCE USING FINANCIAL RATIO, AND EMOTICON** has been published in *Journal of critical reviews (JCR)*.

## ANALYSIS OF FINANCIAL PERFORMANCE WITH CONVENTIONAL FINANCIAL RATIO AND EMOTICON

Miswanto Miswanto<sup>1</sup>, Lita Kusumasari<sup>2</sup>, Rusmawan Wahyu Anggoro<sup>3</sup>

<sup>1,2,3</sup>YKPN School of Business (STIE YKPN) Yogyakarta  
[miswanto.ykpn@gmail.com](mailto:miswanto.ykpn@gmail.com)

Received: 15 March 2020 Revised and Accepted: 19 June 2020

**ABSTRACT:** The problem in this study is the analysis of financial performance with conventional financial ratios that are difficult to understand by managers. With conventional financial ratios, managers find it difficult to know whether the company's financial performance is good or not. To accomplish the difficulty is to analyze financial performance with emoticons. The objective of this study is to examine whether the results of performance analysis with emoticons are easily understood rather than financial ratios. This study uses 155 respondents and all respondents stay in Yogyakarta and surroundings. Respondents include students, lecturers and managers who had studied financial management and accounting. Data was got through distributing questionnaires to respondents. Examination is done by sign test. The analysis proceeds show that the value of the sign test probability is smaller than the 5% error rate. Therefore, the findings of this study are as follows. First, the analysis of financial performance with emoticons easier to understand than analysis of performance with conventional financial ratios. Second, the accuracy (effectiveness) and timely (efficiency) of decision making based on the analysis of financial statements with emoticons is exceed than with conventional financial ratios.

**KEYWORDS:** Conventional, emoticons, financial performance, and financial ratios
